☀ EVERY PARTICIPANT RECEIVES A TEMPORARY TRAINING LICENSE FOR THE IQ SOFTWARE FOR THE WEBINAR. A TECHNICAL CHECK WILL BE CARRIED OUT IN ADVANCE TO ENSURE THAT EVERYTHING RUNS SMOOTHLY.

Quality promise: Not just an online lecture
As with our classroom training courses, this webinar will not only provide you with knowledge, but will also give you time to practice and answer your questions individually. 2 hours of *knowledge transfer* are followed by 1 hour of *practice* and 45 minutes of interaction in the *question/answer-session (Q&A-session)*. The entire webinar is accompanied by a training document, which you will receive in advance.

Live, no recording!
The entire webinar will be conducted by an experienced APIS trainer Live.

The Webinar Concept: Distributed Sessions instead of endless loops
In contrast to classroom training, we have the advantage of training at a time when you have the best concentration. This is why the webinar is spread over three days. As a training participant, you are bound from 9 a.m. to 12 p.m. and 45 minutes in the afternoon. The rest of the time you can do your daily business.
